

Overview

Established in 1927, Northfield Country Club is a 9-hole semi-private club located in Northfield, VT. The Club just finished the process of renovating its bunkers along with changes to some of the tee complexes. In addition, the owner has invested in some much needed maintenance equipment to ensure our team has what they need to maintain the course to a standard of quality expected.

Under the direction of the Golf Course Superintendent and Assistant Superintendents, Greenskeepers perform a variety of tasks related to the daily set-up and maintenance of our 9-hole golf course. Full-time greenskeepers use various hand tools, small machinery, and mowers to maintain golf course areas that live up to rigorous membership expectations including but not limited to greens, tees, fairways, and bunkers. Occasional work with trees, ornamental and cart path work is also expected.

Hours are generally 6:00 am to 2:00 pm Monday through Friday, with every third weekend also required (usually for a four-hour shift each day but can occasionally be longer). Other overtime opportunities are available on occasion and sometimes required.

Experience Required

Ideal candidates will be able to work and adapt in a fast-paced environment that emphasizes teamwork. Full-time Greenskeepers are expected to work well with others in a diverse staff. Punctuality, reliability, and solid communication skills are a must. The ability to work in inclement weather and lift 50 pounds is also important. A valid driver's license is necessary. Landscape maintenance experience is strongly preferred but not required. All

those with a desire to learn within the turf industry and be a part of a strong team atmosphere with one common goal are encouraged to apply.

Essential Responsibilities

Candidates will be expected to learn and participate in all aspects of Golf Course Maintenance. Initial responsibilities include mowing of all short cut grass, bunker maintenance and debris clean up, with more intricate tasks being assigned with experience.

Benefits
